## Popular beachfront lifestyle

INTERSTATE buyers chasing the “ultimate lifestyle apartment” are showing an interest in Royale Gold Coast.

Total Property Group managing director and Royale Gold Coast marketing manager Adrian Parsons said the continued interest in Royale from prestige property buyers was no surprise considering the rare opportunity it presented the market for premium lifestyle apartments on absolute beachfront.

“There are a lot of buyers looking for a property on the Gold Coast that offers them the ultimate coastal lifestyle, whether it’s for holidays, to live or invest,” Mr Parsons said.

“Buyers are drawn to Royale because of its absolute beachfront location and once they undertake their due diligence, they quickly learn that Royale meets all their expectations and hopes for a perfect beachfront apartment.

“Royale’s prime location on Northcliffe Terrace, one of Gold Coast’s most elite beachfront strips, offers buyers northeast facing apartments with beach and ocean views that can never be built out due to the site being a corner block fronting the beach.

“Prestige property buyers also tell us a major selling point is the fact Royale is being delivered by two of Australia’s most reputable companies; David Devine’s DD Living and Hutchinson Builders.

“This strengthens buyer confidence and as construction progresses, we expect the number of inquiries and apartment sales will continue to increase as excitement builds towards completion in 2025.”

Royale Gold Coast is DD Living’s collection of 104 premium two, three and four-bedroom apartments, beach homes

and penthouses, all with ocean views and access to six-star amenities inspired by the world’s best resort hotels.
