

CONSTRUCTION UPDATE

Jasmine Residences October 2023

Dear valued purchasers at Summerlin Stage 3,

We are delighted to share an update on the development progress of Jasmine Apartments with you.

We are thrilled to announce that the design phase for Stage 3 is nearing completion, and preparations for on-site activities are set to commence within the next month. The only outstanding item awaiting resolution is the geotechnical report for the construction of the basement driveway and ramp adjacent to the existing acoustic fence along the rail line.

Furthermore, we are pleased to inform you that the Brisbane City Council has granted Development Approval for the adjacent building (Stage 4), which will be constructed concurrently with Stage 3. This synchronized approach is expected to yield potential construction efficiencies, ultimately leading to a shorter overall construction timeline.

Once the detailed building design is finalised, and Building Approval is secured, we have scheduled the initiation of on-site construction activities.

We understand your eager anticipation to witness the progress on our site, and we share in your excitement as we prepare to embark on the construction phase. Rest assured, we are committed to providing you with regular updates as the project unfolds. Our team remains unwavering in our dedication to maintaining the highest quality and standards throughout the construction journey.

We sincerely appreciate your continued patience and support. If you have any questions or require additional information, please do not hesitate to reach out to our team.
